

Data Set Creator

Remote - Entry Level - Full-Time

Impressions is looking for a dataset creator to help identify, edit, and create facial datasets. The content created drives growth and user engagement for the Impressions mobile application. If you love social media content creation, pop culture (film, music and tv), technology and enjoy digital media editing, you're perfect for this opportunity.

Impressions, headquartered in the Silicon Valley, is the world's first and largest mobile deepfake creation suite with users generating over one hundred thousand deepfake videos a month to share with friends and on social media.

Responsibilities

- Research, select and extract video and images of the world's most iconic celebrities
- Maintain processes for data set creation and upload.
- Moderate customer content uploads to ensure a safe environment for users
- Take part in daily meetings and bring ideas to the table

Qualifications

- Fluent in English
- Passionate about Internet entertainment/media space, social video/content, and pop culture
- Attention to detail and processes
- A keen eye to understand the structure of engaging content
- Self-motivated
- A Bachelor's Degree or less than 1 year away from graduation
- Ability to work differing rotations/shifts as required
- Access to a working computer and a high-speed internet connection

Preferred Qualifications

- Ownership of an iPhone or an iPad
- Excited by the opportunity to join a start-up at the ground level and gain experience working in a fast paced environment

What We Offer

- A full-time opportunity to work at one of the most promising startups in the artificial intelligence and mobile entertainment industry
- Experience working with a highly qualified, fully remote team. A format of work that will be more prevalent as you continue your career
- An opportunity to build yourself in a social content environment
